PRINCE2 Foundation

(3 Day)

Business Benefit

PRINCE2 provides a Method for managing projects within a clearly defined framework. PRINCE2 describes procedures to coordinate people and activities in a project, how to design and supervise the project, and what to do if the project has to be adjusted if it doesn't develop as planned. The Foundation is the first of the two PRINCE2 Examinations you are required to pass to become a PRINCE2 Practitioner. This level is aiming to measure whether a candidate would be able to act as an informed member of a project management team using the PRINCE2 method within a project environment supporting PRINCE2. To this end they need to show they understand the principles and terminology of the method.

Who Should Attend?

Project Managers, Project Consultants, Project Planners, Project Estimators, Resource Managers, Team Managers, Supervisors, Project Support Staff, Project Assurance Staff or anyone requiring more than a basic knowledge of PRINCE2™

The EQV Promise

We ensure that our courses are well received and are delivered by trainers that have actual commercial competency in their chosen subject.

Not only is this essential for our accreditation purposes but it ensures that the trainers will be able to include relevant experiences they themselves have learnt from. This generates appropriate engagement and empathy in the training environment.

When the course is completed we will report back to you about how the training has been received and can indeed evaluate the training right from start to finish after the skills transfer period. This information can come from your account manager who is your main point of contact at all times.

The EQV Experience

Our training courses take the attendee on a journey of learning and development. Throughout the course everyone is engaged in a stimulating and participative way.

Our courses are designed to encompass many different kind of learning activities making sure they appeal to different natural styles of learning that individuals have.

Activities may include a selection of syndicate work, discussion, pair work, case studies, games, role play, quizzes and presentations.

During the event an individual works on their own implementation plan so that they have a clear plan of how they are going to support their own skills transfer back in the workplace. Whilst it is important for the attendees to enjoy the workshop we want to ensure they apply as much as possible back in the workplace.
